Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph

DEAR SIR—I have, myself, almost on occasion for your invaluable Pills. I have used them any six years as occasion dictated, and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach From habitual costiveness, and the wording of nauseous and slimy stools I am completely relieved The most furious symptoms of Dyspepsia with which I was once too well acquainted, have so entirely passed away, that I hardly know when they were Any one you can make of this, or a more full development of my case, is at your service.

Except in an obstetric case your book (Family Physician) and Pills have been the only physician in my house for six years

There are many of my friends around, and more and more, who call for your Pills as a family medicine, and for chronic cases. Yours truly,

Important to Owners of Horses!

Pillow's Celebrated

HEAVE CURE!!!

Which has been cured with such astonishing effect in France and England for the last twenty years is now and has been for the last two years performing the most wonderful cures ever on record in this Country More than

2000 cases of Heaves,

1500 cases of Chronic Coughs and Colds,

1000 cases of Catarrh and Nasal Gleet,

1500 cases of Affection of Bronchial Tubes and Glands,

300 cases of Thick and Broken Wind, and

900 cases of Inflamation of the lungs,

Have been cured by this extraordinary remedy, since its introduction in the United States, The following is one of the hundreds of certificates in our possession, proving its Universal efficacy.

NEW-SCOTLAND, Albany Co., N Y., February 17th 1848.

Messrs Page & Quincy Gentlemen—I herewith transmit to you, my certificate, for the benefit of those who may have horses similarly afflicted

I, hereby certify that one of my best horses in the winter of 1846-7, became afflicted with the heaves in the most aggravated case—which I endeavored to subdue with them and for a while seemed to get anything for him Having heard of the unparalleled popularity of 'Pillow's Heave Cure' I purchased three pair to of it, gave it to him, and it entirely removed the disease Five and three months the present he has been in perfectly sound condition.

JAMES H WILLIAMS

UNIVERSAL CONDITION MEDICINE

Read the testimony of an eminent Bath Farrier

HOWARD, January 9th 1848

Messrs Fo & Grant Gentlemen—At the request of your Agents here I send you my opinion of your celebrated 'Pillow's Heave Cure' and *Universal Condition Medicine*, as well as testimonials for the diseases and all of causes arising from an affection of the breathing tubes, gravel and calculi in glands and the lungs, and also from the great medicine virtues, for cases of Farcy Mormon, Bots Founder, Dropsy of the Skin and Chest, Fever Phrensy, Laudine Hide Bound, Inflamation of the Kidneys and Bladder It is a vegetable compound which operates upon the animal system I would like a quantity to put into the hands of the living public so that at that season of the above Diseases are most cured through neglect during the Moulting Season or time of changing the hair, will take place during which latter I assume it will sell this year, at which time, at the house I proposed and neglected, the parts of the skin die out and the circulation of the juices ceases It left in that condition, Disease in some form, one to one It is at this time that I consider your *Invaluable Powder* indispensible, as it operates upon the pores and Roots of the Skin, and causes the old hair to fall off in due time, makes way for the new and appears to it a fine and glossy appearance

CAUTION —The astonishing success of Dillow's Heave Cure for the last two years, in the United States, has induced several persons to imitate and counterfeit it, and they even go so far as to caution the public against it, and endeavor thereby to palm off their nostrums as the only genuine article We declare that *'Dillow's Heave Cure'* is the first article of the kind ever introduced in the United States, and we hereby offer the sum of *One Thousand Dollars* to any person, or persons who will prove to the contrary Consequently all others must be imitations

Kirkbride's Tattersall's

HEAVE POWDERS:

A RAPE SPEEDY AND PERMANENT CURE for *Hoarse, Broken Wind, Chronic Cough, Colds*, and all diseases which depend upon inflamation of the mucous membranes in the lungs, throat or canal of the Horse, as affect the

Soundness of the Animal's Wind.

This remedy which has been used with such remarkable success in England, is now offered to Horse owners in the United States as a positive specific for those obstinate and distressing complaints From the combination of powerful vegetable ingredients in the composition it is enabled to compete successfully with disease in the hardy constitution of the Horse, and at the same time is warranted to be perfectly safe and may be given speedily by the one and other cattle, and does not at all incommode the animal, or detract him from usual labor The following is one amongst many proofs we have of its efficacy It is from one of the best Farmers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive:

New York, Nov. 1. 1847

Messrs A H Gough & Co:

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse at livery in my stables, and that I was quite dubious of the wisdom of attempting to cure such a bad case as his was, and did not, in fact believe there were any medicines better for his complaint than these I had been in the habit of using during my extensive practice with Horses But in justice to you and my *valuable friend*, require me to say, that the single package cured the animal of an aggravated case of Heaves as I ever saw, and his wind is now perfectly good I believe there can be no permanent one Respectfully, &c FLOYD, 102 Laurens-st

Messrs A H Gough & Co—Gents, I bought, about six weeks ago, a package of Heave Powders to administer to a favorite horse, who had been troubled with heaves for more than two years His case was a very bad one, and so severe as to incapacitate him from hard labor, and I resorted to the remedies ordinarily used for the disorder, but had no effect but to slightly diminish the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was It is a month since he has taken the Powders, and I can warrant him sound

Respectfully, GEO W DAVIS,

Boston, Middlesex Co., N I

GREAT CONDITION MEDICINE

Besides these specific agents upon diseases of the lungs and windpipes, the Tattersall's Heave Powders, from their great alterative and cathartic properties, are also effectual in horses as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predispositions to disease Many cases of founder has been prevented and cured by a few doses of the Heave Powders, when there was the first that is given to the horse on and after a hard drive or an journey in inclement weather. They are warranted to cure the worst cough in a few days, and will wholly eradicate a recent cold by the use of 1 or 2 doses As a condition medicine they are unequalled, especially when a night mole, staring coat, loss of appetite, or decided derangement of the digestive functions, or existence of bots and worms in the alimentary canal, as described by the following certificate

Messrs A H Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, he ran a different way than I expected The first dose of Expectorant Powders that I administered brought away an immense number of worms fish &c and I believe they were all the cause of the cough, tough coat &c, which he exhibited, for that package has entirely cured him, his appetite is good, and he is now in prime condition I observe fully recommend your Heave Powders for worms as well as cough Yours, SAM'L ROBERTS

East Hampstead, L. I., Oct 26, 1847.

☞ CAUTION As several imitations of the valuable and popular remedy are now being put up under the name of 'Heave Powders' or 'Heave Compound' or, persons are cautioned to be aware of them, and to try no remedy but *Kirkbride's Tattersall's Heave Powders*

No family should be without this potent preservative Price $1 per package or sufficient to cure an ordinary case; 5 for $5 dolls

Important Letter.

MESSRS CURTIS & SMITH

Dear Sirs,—I herewith enclose you a few lines relative to your 'Downs Elixir' which, for the benefit of the suffering if you think worthy you are at liberty to make public About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life Her symptoms were, bad cough, pain in the side and sometimes night sweats and other pneumonicy signs of pulmonary consumption We consulted our best physicians who gave her little or no relief, and finally pronounced her case incurable consumption She continued to become weaker, and the symptoms more confirmed

About this time at the suggestion of a friend, we concluded to try Downs' Elixir Having procured a bottle from your agent (S H Byram of Bangor) she commenced taking it At first it seemed only to mitigate the severity of the symptoms but in a short time her health began evidently to improve It eased her cough, relieved her night sweats, and greatly improved the tone of the whole system — After having continued its use most of the time for nearly a year she calls herself cured She is now able to go about the house and superintend affairs as usual Under God we believe that to Downs' Elixer alone, she owes the preservation of her life, and the restoration of former strength and energy We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success Yours truly,

(Signed) SWAIN P NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country, almost daily.

DOWNS' ELIXER is unquestionably the best article known for the cure of *COUGHS, COLDS* and *CONSUMPTION* It is more certain to give relief in all cases of *ASTHMA*—often a perfect cure—than any thing hitherto offered to the public

In cases of *WHOOPING COUGH* it needs only to be tried to cure it preference over all other remedies It immediately breaks up the cough and renders it more plaything what it otherwise is and renders it more plaything what it otherwise is and renders it more plaything what it otherwise is a scourge and terror For the *CROUP* it is a positive cure We speak with confidence, for it has never failed, and we believe never will, when used according to directions

Court of Inquiry.

We find in the New Orleans Mercury an excellent condensation of the Pillow trial, the main features of which we copy:

The Testimony of Mr Trist, on the nineteenth day, was in substance as follows:

Mr Trist had been in Gen Scott's room on the night of the nineteenth, engaged in conversation respecting the contemplated battle of the morrow. Mr T says:

The company dropped off until at a very late hour of the night, when preparations were made by Gen Scott to go to bed, and he had a bed made up in his room also for Gen Pillow. Upon my leaving the room to go to my own, General Pillow followed me and went with me to my room. He then, in a very solemn tone, said to me, "This is going to be a failure." I answered that things had certainly not looked very bright at nightfall, but my own up rits had been very much raised by Capt Lee's arrival, and the information brought with him. Gen Pillow did not notice my remark but in a tone and manner implying that I had interrupted him, went on to say, that I call on you now to remember and bear me witness hereafter, that I have had nothing to do with it. At that time, I looked upon these words as the dying charge of a man who expected to be killed next day, and in manner corresponding to that expression. I made him a promise as well as I recollect, "I will not forget." He then began some further remarks in the same strain, giving his views of what ought to be done.

Mr Trist further testified, that at a meeting of many general officers, about the 11th of September Gen Scott was in favor of attacking Chapultepec, but that Gen Pillow was very much reserved. Furthermore, that about the same time Gen Pillow expressed to him his decided opinion that there should be no more active operations until the army was reinforced. He also testifies that Gen Scott was not cast down nor immediately after the affair of Molino del Rey as stated by General Pillow, though he was much grieved at the loss of many personal friends.

The subjoined extract from the testimony of Capt Huger, in the evening of the 20th after the battle, it would be well to compare with the one quoted above from the testimony of Mr Trist given late at night by the same Gen Pillow just before the battle:

I rode up to him to congratulate him on his safety and the success of the day, which had turned out as well as we could have wished from the prospects of the previous night. The General replied, "Yes, sir, I am getting along very well. I had arranged all my plans, which have been successfully carried out, and Gen Scott is perfectly satisfied with it."

Lieut Brewer testified that Major Burne denied positively to him having been the author of the Lowndes letter. The Major, it will be recollected, claimed, before the Court, the authorship of said document. He also showed Lieut B certain laudatory verses, in which Gen Pillow's name was introduced in the chorus, the whole written and adapted to the beautiful air of Jim Crow.

Lieut McConnell thus speaks in answer to a question when and where the new General Pillow at the Battle of Chapultepec. He states the time twenty minutes after the place had fallen, that General Pillow was carried into the works:

"When I was near the building, I saw Gen Pillow borne along on the backs of some soldiers. I remember it was at this time they were carrying him along, for I stopped a moment to look at him, and seeing that he did not appear to suffer from hurt, and remembering a circumstance which happened some time previous, I passed on, thinking he was but slightly hurt."

The Harmoneons—Concert this Evening

The return of those sweet singers, the Harmoneons, after an absence of nearly three years, cannot fail to be very agreeable to our citizens. No company of singers ever made a more favorable impression in our city than these, and from their long continued practice, and artistic powers, and natural endowments, they cannot fail to entertain and interest, if not indeed, quite to charm the people with their exquisite melody, which fans the heart into the most pleasurable emotions. They give a Concert this evening and will be greeted, as they well deserve to be, by a full house.

☞ Information is wanted by a distressed family, of a young man by the name of Robert A Mitchell, son of Thomas Mitchell, who left home on the 15th of last November, to go into the woods, logging, and has not since been heard of. His friends are very anxious to hear from him. Information can be sent to the Post Office in this city.

Papers in the city are requested, by those interested, to insert this or a similar notice.

☞ We wish it to be understood that the proceedings of the District Convention were made up by another hand than that of the Secretary, to we deem it due to Mr Washburn to state that the title given to his official signature was the accident of the reporter, and was not noticed in the proof reading. The choice of Mr McCobb was by ballot, and the additional substitutes by hand vote.

☞ The Charter Oak has been put upon the route between this city and Portland, there to connect with the Railroad to Boston. This will be an acceptable movement to a large number who like the variety afforded by the change from boat to cars.

It will be particularly gratifying to us, as by this arrangement we get the news some ten or twelve hours in advance of the mail.

Complaint persons, desiring to supply their shops, should apply to some newspaper establishment for the office of collector.

Another Letter from Gen Taylor.

The editor of the Richmond (Va) Republican, having propounded several inquiries to General Taylor, received the following reply, which is published in that paper of May 2d. It is still more explicit in its declarations, than the letter addressed to his brother in-law:

BATON ROUGE, La., April 20, 1848.

Dear Sir—Your letter of the 10th inst., which alludes to certain statements that have recently been made in some of the papers at the North and which subjects several inquiries for my consideration, has been received.

To your inquiries I have respectfully to reply:—

First—That if nominated by the Whig National Convention, I shall not refuse acceptance, provided I am left free of all pledges, and permitted to maintain the position of independence of all parties in which the people and my own sense of duty have placed me—otherwise I shall refuse the nomination of any convention or party.

Secondly—I do not design to withdraw my name if Mr Clay be the nominee of the Whig National Convention—and, in this connect on, I beg permission to remark that the statements which have been so positively made in some of the Northern prints to the effect *"that should Mr Clay be the nominee of the Whig National Convention,"* I had stated *"that I would not suffer my name to be used,"* are not correct, have no foundation in any oral or written remark of mine. It has not been my intention, at any moment, to change my position, or to withdraw my name from the canvass, whoever may be the nominee of the National Convention, either of the whig or democratic party.

Thirdly—I have never stated to any one that I was in favor of the Texas of '46—of the Sub Treasury, nor that I originated the war with Mexico. Nor, finally, that I should (if elected) select my cabinet from both parties. No such admissions or statements were made by me, at any time, to any person.

Permit me, however, to add that should such high distinction be conferred upon me as that of elevation to the Executive Office, the Constitution, in a strict and honest interpretation, and in the spirit and mode in which it was acted upon by our earlier Presidents, would be my chief guide. In this, I conceive to be all that is necessary in the way of pledges.

The election of another candidate would occasion no mortification to me, but to such a result, as the will of the people, I should willingly and calmly submit. As I have no ambition to serve, but in the desire to serve country, it would bring to me no disappointment.

With sentiments of high respect and regard I remain,

Your most obedient servant,

Z TAYLOR.

The paragraph in this letter which refers to his intent on to continue a candidate against the nomination of Mr Clay, should that happen, if taken in its unrestricted sense is liable to great objection, and is calculated to drive his strongest friends out of the Convention at Philadelphia.

We incline to the opinion however, as has been expressed that in his subsequent letter of April 22, he qualifies this. In that letter he says—

"I have consented to the use of my name as a candidate for the Presidency. I have frankly avowed my own distrust of my fitness for that high station, but having at the solicitation of many of my country men, taken my position as a candidate, I do not feel myself at liberty to surrender that position, until my friends manifest a wish that I should retire from it. I will then most gladly do so."

As now his friends, his *only* political friends can be Whigs, and as the moment after some other candidate may be nominated, would, therefore, "manifest a wish" that he "should retire," which he would then "most gladly do," we may well consider such a subsequent position to be a satisfactory one of the objections to the paragraph to which we have referred.

☞ In the New York Court of Common Pleas Mr Frazer sued Mr Gale for posting him in Jacksonville, Ga., in consequence of his refusal to accept a challenge and fight a duel. The plaintiff laid his damages at $10 000, the judge charged favorably, and the jury after a consultation of twenty minutes, returned a verdict of seventy-five dollars.

☞ If one cow daily treads three pounds of hay under foot in the mud, she will waste about a hundred pounds per month, or a herd of twenty cows would waste a ton per month. At this rate, how many times, every ten years, would the quantity wasted pay the expenses of making feeding boxes, and racks?

☞ Fresh Shad and Mackerel have come to town to keep company with the prime Salmon of the Penobscot. Strawberries and cream are soon to be the order of the day and then for a large company of visitors to our lively city.

"Mr Forbes, in a recently published description of China, gives an outline of the Chinese articles of war, among which we find the following:

"Art 8. The soldier who bravely kills one enemy shall be reward-d—but he who is detected in living pris-ners about his own person, or who by false tales usurps the merits of others as his own, shall be decapitated."

The Courier and Enquirer cruelly commends the above to the attention of a certain renowned literary character and asks, 'what would Pillow's head have been worth, had he been a Brigadier in the Celestial Empire?'

☞ Mr Geo Davis whose house was broken into and nearly destroyed by the recent mob at Portland, has been fully exhonerated from all blame in the late abduction case.

Mr. Trist.

It is stated by the Washington correspondent of the Philadelphia Ledger, that Mr Trist, on his arrival in Washington, will probably be tried for a high misdemeanor!

☞ The City Council of Salem have passed an ordinance restraining dogs from running at large.

Mr Wise, the aeronaut, made a very successful ascension at Washington on Wednesday. He descended in Prince Georges' County, having floated eight miles.

The Sioux Indians are now at war with the Chippewas. Several bloody engagements have taken place, and thus far the Chippewas have been victorious.

Hogs at Large.

Mr Editor:

I would like to enquire if there is no way to get rid of the intolerable nuisance of hogs running at large. There is a class of people in this city who have so trained their hogs that they will roam the streets nights, committing depredations, stealing their living, and return to their pens before people are stirring. I consider high way robbery a gentlemanly profession, compared to this dirty, mean contemptible mode of destroying and stealing the property of another.—Do for decency's sake stir up the city government to take some efficient means to immediately abate this insufferable nuisance. I will willingly double my tax to be rid of it. After spending time and money to adorn grounds, I know of nothing so aggravating as to get up some morning and find every thing demolished by the hogs. I for one cannot and will not longer, peaceably submit to this imposition. If there is no law but Lynch Law, I take that.

Later from Cuba.

We learn from Capt Hilton of the schooner Sea who arrived Thursday from Cardenas, that when he left, the 14th ult. the white inhabitants were hourly in anticipation of a general insurrection among the negroes. The Governor was using great efforts to suppress any attempt, and had already imprisoned a number of blacks whom he supposed to be leaders in the disaffection.

Mr Blake, believed of New York, an engineer was horribly murdered near Pegwan, about fifteen miles from Cardenas, on the 7th of April, he had gone to accompany a friend to the depot, and on his return was knocked from his horse, having his head nearly served from his body, and his pockets rifled of their contents. He has left a wife and child in that city.—New York Herald.

The proposed intervention of our government with the affairs of Yucatan, though apparently of little consequence so far as the magnitude of the State under consideration is concerned is still of great and fearful importance as developing a principle of national action, and a departure from the line of policy which has hitherto marked our national career. "Equal and exact justice to all nations—entangling alliances with none," was the motto of Washington, and the wisdom of it is not only apparent on the surface but it grows more apparent as you progress in the intricacies of national politics.

Tragical Event.

One of the most deplorable events that has happened in this part of the country for many years, occurred at Fall river last evening. The wife of Mr Luderich Borden, an extensive inhabitant of that town, drowned her two youngest children one 2½ years and the other 1 year old, in a cistern, and then took her own life.—Mrs. Borden has within a few days shown undeniable evidences of an unsound mind, expressing fears that they should come to want, though her husband was in good circumstances, &c. Yesterday afternoon, a girl, who lived with Mrs Borden, went out to get a pail of water. On her return Mrs Borden and the two younger children were missing. She asked an older child where her mother was gone, and was told that she had gone into the cellar.—She went to the cellar door, but was afraid to enter upon hearing the groans of Mrs B. The neighbors were called in and found Mrs B extended on the floor, with her throat cut and just alive. The children were both dead in the cistern. This dreadful tragedy has caused a great excitement in Fall river, and a deep sympathy is felt for Mr Borden in this sudden and dreadful bereavement.—[Boston Traveller.

A Prejudice of Latitude.

While the Locofoco organ at Washington is attempting to degrade the national sympathy for the Republican movements in Europe, by giving it a party direction, he gives utterance to the follow ng sentiment, referring to the French Provisional Government.

"In our movements we do not agree with it—though we must allow at the same time for the prejudices of the European latitude."

Now what is that 'one movement' that Mr Polk's organ disapproves of? It is the decree of the Provisional Government abolishing Slavery in the French Colonies.

Thus does the official spokesman of the Locofoco party sneer at a decree of time putting hundreds of thousands from Slavery, by stigmatizing it as a prejudice of latitude.

[Cincinnati, Ohio, Herald.

The Husbandman.

What occupation is more full of dignity, what duties are more full of joy than those which distinguish the husbandman. When was it that man ever rose from a state of servitude and dependence to proprietorship of land and its cultivation, that he did not learn self respect, and become more elevated in his own esteem? Then it is that nature always takes place. Then it is, that breathing no low or abject spirit, he escapes from the sordid harvest of corruption. The economy of the father, the economy of the mother, the devoted labor of the one, the chastity of the daughter—these, these are the fruits of the glorious agriculture. And this is my answer to all who decry it. And pity them who do nothing, or are incapable of enjoying the soothing and accompanying influence which agriculture sheds over the mind and heart of man.

"Jim," asked the little boy of another, as heard of a dozen cast steamboat, "what do they put that big bell on some for?" "Oh, Sam," replied the sagacious addressed, "that's to make the water go faster. You see they want to make her go like smoke, when they come where the village is."

Town Spunk.

Belfast, we believe has voted to pledge its credit to the amount of some two or more hundreds of thousands of dollars, to build a railroad from that place to Waterville. The project, we notice is agitated in Farmington, of pledging the credit of that, and other towns in the neighborhood, to construct the railroad from Sandy river to Augusta. The idea of such pledges to a Portland one, and may yet work well all over the State. Perhaps this is the best way to raise money for the construction of railroads. There can be no risk to towns in building roads on which a large business must be done.—[Augusta Banner.

Tuesday, May 9th.

During the past week we have had an abundance of rain, which gives us a plenty of water for driving, the logs from the small streams are or will be in a day or two, coming into the boom, and in the course of six weeks the East and West Branch logs will also be running into the booms.

Business for the past week will good. A number of vessels finished loading and sailed, and but few high vessels arrived, consequently the number wanting freight are but few, and freights are rather improving than otherwise. We quote them the same as in our last, viz—over the Shoals $2,25, Boston and vicinity 1,50 a 1,75, Portland 1,50.

There are several vessels loading for the West Indies, although the markets there, just now, are quite dull—Boards are quoted at Havana from 17 to 18$—freight 2$.

CONSUMPTION.

This terrible disease is commonly attributed to our climate. But if the climate were to blame, the disease would have been inflicted on that, and not upon the people. We think the fault is in the people, and that if the people would keep the skins of themselves and their children properly washed, and abstain from gluttony, poverty, and idleness for a generation or two, consumption would be no more known than it is now, in good society, the disease for which scratching and sulphur are the principal remedies.

However, consumption prevails as matters are, and picks off the best and prettiest of us, in our present. In this state of things we must do the best we can, guess out and patch out the web of life, with Jothways voyage, and medicines. Of all the medicines we know of "Dr Wistar's "Balsam of Wild Cherry" is what we would first recommend. We have in our office a living proof of its efficacy, who, but for it, would have been beneath the sod long ago. The inventor of this medicine, Dr Wistar, was a man of science and humanity, and undoubtedly prepared the remedy in its best form, and the public may rely upon Mr Fowle for the genuine article.—*Boston Daily Chronotype, Jan 18, 1847.*

SICK HEADACHE.—*Wright's Indian Vegetable Pills* are a sure cure for every description of headache, because they cleanse the body from those morbid humors, which, if confined in the stomach, are the cause of nausea and sickness, want of appetite, disagreeable taste in the mouth, bad breath, wasting of the gums decayed teeth, and many other distressing complaints and when taken into the circulation and thrown upon the various parts of the body, give rise in every unlady incident to man. Four or five of Wright's Indian Vegetable Pills, taken once in twenty four hours, will, in a short time, put a complete stop to Sick Headache—at the same time the digestive organs will be restored to a healthy tone.

NEVER DESPAIR, YOU CAN BE CURED.

Philadelphia, July 26, 1845.

TO THE PUBLIC.—I certify that before my residence I became afflicted with what the physicians called SCROFULA. It made its appearance by pain and swelling of the joints, more especially of my ankles, knees, wrists, and elbows, after which the glands of my throat and neck became inflamed and swelled, attended with most excruciating pains. I was often confined entirely to my bed, and for weeks together could not move my neck or turn my head. Several physicians attended me at different times—but they did not appear to do me any good.

About a year ago I was attacked with vomiting which continued every few minutes all one night. The next day an eruption appeared on the side of my neck, which soon spread all over my neck, head and face with inflammation of my eyes and eyelids, which destroyed my eyelashes and caused the hair to fall from off my head, and soon the disease spread all over me, my limbs were one entire sore. I could not bend my hands or arms without causing the skin to crack open, when the blood would run out. Some of my finger nails came off. In short, I was unable to get my own living, and in this condition I called upon DR. JAYNE, in order that he might undertake my case. He directed me to take his ALTERATIVE three times a day, and his SANATIVE PILLS as often as I should find it necessary. I have now taken his ALTERATIVE four months, and am most happy to say that it has entirely cured me.

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analogous complaints, is DR DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union, during the last 30 years His only reason for introducing the Paste in the public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms that during his practice of forty years this Paste has never, in one single instance, failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years out after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured

If the unfortunate, instead of dragging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time

☞ To cure this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchaser on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr PETER G DOUGLASS, at his Office, No 56 Union street, Boston, at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted

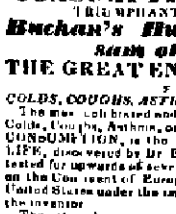
ALL-HEALING Ointment,



FOR THE CURE OF Colds, coughs, consumptions, for scrofula, scurvy, and all cutaneous eruptions; for bruises, burns, ulcers, sores of all kinds, and general debility

This celebrated Ointment has a most striking effect upon the blood in cleansing it from all impurities, upon the synovial fluid, which lubricates the joints and thus removes stiffness, and upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine; and by restoring the tone and function of the urinary organs, thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St. Vitus's dance, palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nervous system. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated, invaluable and worthily named "ALL-HEALING OINTMENT." The innumerable pains that have been assuaged, the ten thousand sufferers relieved and cured. And the more than ten thousand hearts which have been comforted and cheered by its salubrious efficacy, testifying to the truth of all, and more than all, herein inserted.

for the cure of Piles, Inflamation of the Liver and Splenic Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidnes and Bladder, Inflammation and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflamation of the Spine, and for the relief of Married Ladies,

THE VEGETABLE PILE ELECTUARY,

invented by Dr A Upham a distinguished Physician of New York city, as the only really successful remedy for that dreadful scourge and distressing complaint, the Piles, ever offered to the American public.

Much time is not INTERNAL REMEDY—nor an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent*. It strikes at the root of the disease, and improves the general health in a remarkable manner.

Each box contains twelve doses, at $1-3 per dose. It is very mild in its operation, and may be taken in cases of the most acute inflamation without danger — All internal applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease temporary in their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character, with a decomposition of blood in any particular part or organ. In inflamation and congestion of the Liver and Spleen, Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in Inflammatory and mercurial Rheumatism, it is the *Best* Medicine ever discovered.

IMPURITIES OF THE BLOOD.

For all impurities of the Blood, arising from the improper use of Mercury, or other causes, for all diseases of the Skin, all Scrofulous Affections, in all cases where the blood is poisoned, it is recommended to the need, rendering it pure and healthy, and restoring the vital principle of life, DR UPHAM'S ELECTUARY is every where unrivalled

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflamation of the Stomach, Bowels and Spine, with losses of the back, flow of blood to the head, &c — The Electuary is perfectly safe for Pregnant Ladies, and the most potent Cathartic that can possibly be used, as it will not only remove the Piles and all inflamations diseases, WITHOUT PAIN or IRRITATION, but will cause an easy time, safe delivery, and speedy convalescence in the off-spring

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine; no Aloes, Colocynth, Bumbage, or other powerful and irritating purgatives. No fear of taking cold while under its influence, no change in diet necessary. If the best according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets containing valuable information respecting this Medicine, may be had of Agents, gratis.

PILE ELECTUARY.

Portland, Me., March 14, 1847.

Dr Upham—My dear Sir—I cannot express to you my intense and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Bleeding Piles for 18 years past, so much so that I became confined to almost a cripple, with loss of appetite, and general derangement of the digestive organs My case has become known, and in fact I was a misery to myself. I was obliged to give up my business and tried all kinds of medicine, had the best advice the Doctors in Boston and this place could furnish, spent much money—and was astonished to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself perfectly well; and I hope sir, God may I am well now, indeed Sir, I cannot express the heartfelt satisfaction I am in possession of in health, and now in a condition to support my large family, dependent on me.

CONSUMPTION.

STATEN ISLAND, June 10th, 1847

DEAR SIR—I take great pleasure in giving you my certificate, that Dr Comfort was attacked with a severe cough, last in my left side, loss of appetite, and occasional raising of whity and yellow mucous. Some days I raised a half pint of mucous, streak with blood I have been under the treatment of a dozen physicians, one recommended by Dr. Mitchell of Philadelphia, to use a breathing tube, I purchased one, I only made use of it for one week, it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to get up, my voice was entirely destroyed, it was difficult for persons to understand me I saw Dr Vondersmith's Medicine recommended very strong by a person whose behalf was cured, I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and found me perfectly sound Yours, &c.,

Patent Mill Wheels.

Tinbey's Patent

Two Vent Cast Iron Water Wheels,

FOR

SAW MILLS,

Invented by T. R. Timber of Cato N. Y.

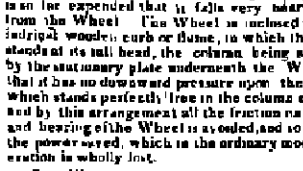
THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, to possessing and combining more *Strength and Speed*, and giving a more *uniform* and *Steady Motion* "in and out of the cut" (and the reference not liable to break quarks,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

FOR

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for purpose cited in Shafts, now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by HIRAM A. BEARD, Esq., *Civil Engineer*.—Lowell, Mass. who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel, that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel This Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the head rise in a freshet as fast as the back water But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa for as the head increases, the width of the jets should be proportionably decreased, so that the water may not issue to waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheels would be worthless, as less liable to need repairs, easily accessible when they are needed, costs much less in the outlay, as much more durable, and takes very much less room in a mill or shop — Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel."

ITHAMAR A BEARD, *Civil Engineer*."

Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best Fall and Winter medicines ever known. It not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And to this has the grand secret of its wonderful success to be. It has performed within the past two years, more than 35,000 cures of severe cases of disease; at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Disease of the Kidneys and Dropsy,
3000 cases of Consumption,

and thousands of cases of diseases of the blood, viz:—Ulcers, erysipelas, salt rheum, pimples on the face, &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and druggists from all parts of the United States, indorsing the above statement. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the prevention of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season It has never been known to injure in the least in any case or child.

RHEUMATISM

This Sarsaparilla is used with the most perfect success in all the complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

Read Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it to exert a most powerful effect upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago on a public stage. Please send me two bottles to the care of Dr. Seymour. I have converted with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

Dr Townsend—Dear Sir: Nearly twenty years ago I took a violent cold, which settled on my lungs, and effected me severely, indeed, finally it became a constant hacking cough, but not to severe as to prevent me from attending to my business. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty, and raised with me cough much but matter, and for the last nine months previous to using your Sarsaparilla, had regular night sweats; indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla, I find my health restored. It relieved me gradually, and I am now enjoying much better health than I have before in 26 years. I had almost entirely lost my appetite, which is also returned You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. We became very much alarmed on her account. While using the medicine I gave her some of it, and it soon entirely relieved her, as well as myself, and she is well now, and pretty, as any child in the town. She was also quite a little blower, I took them as a test, and her skin is smooth and for newly, and I am satisfied she received her health from using your excellent medicine.

S. W. CONANT, 444 Bowery.

GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of desire," use a bottle or two of Dr Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of immense value to unmarried ladies.

GREAT FEMALE MEDICINE

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude, from toiling it, at once become robust and full of energy under its influence It immediately obliterates the nervelessness of the female frame, which is the great cause of barrenness.

It will not be objected to us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of a heavy down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefit she received, I take pleasure in thus acknowledging it and recommending it to the public. M. D. TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous diseases to which females are subject at the time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching women hood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It brings the whole system, renews permanently the natural energies—by removing the impurities of the body, not as by stimulating the system so to produce a misnomer, a relation—which is the case of most medicines taken for female weakness and disease

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you, that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with head sores, have taken some four bottles, at least them some, for which I feel myself under deep obligations. Yr's respectfully,

ISAAC W CRAIN, 106 Wooster-st.

UNITED STATES OFFICE

Capt. G. W. McLean, of the U.S. Marine Corps, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

RAHWAY, Jan. 25, 1847.

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and before taking two or three bottles, I was very much relieved, and after using it a few weeks I was entirely restored to my former health. Being satisfied that it is a valuable medicine, I have used it in my family and find it a most invigorating remedy. I believe that if all who suffer from debility would use Dr. Townsend's Sarsaparilla, they would not be troubled with [illegible]
